Jun 28th 14:00-18:00
1F Auditorium of Building C, CDB

★Speakers★

T Era (Lab. for Stem Cell Biology, CDB)
Title: Spatial and temporal dissection of mesoderm to direct differentiation of embryonic stem cell into specific mesoderm lineage

T Wakayama (Lab. for Genomic Reprogramming, CDB)
Title: Characterization of Somatic Derived ES Cell (ntES Cell)

Dr. Sung Keun Kang (Seoul National University)
Title: Establishment of Pluripotent Human Embryonic Stem Cell Line Derived from a Clones Blastocyst: The Technical Aspects

Dr. Woo-Suk Hwang (Seoul National University)
Title: Pluripotent Human Embryonic Stem Cell Derived from a Cloned Blastocyst and its Potential Applications

Host: Takumi Era / Shin-Ichi Nishikawa (Lab. for Stem Cell Biology, CDB)
